

For a sculpted silhouette and firmer, younger skin

RF Skin Tightening is an advanced scientific method of tightening and toning loose, sagging or ageing skin with Radio Frequency energy.

Whether it be tightening and toning loose skin after dramatic weight loss or firming ageing skin – RF Skin Tightening offers effective results for virtually any part of the face and body.

Treatments are comfortable, non-invasive and do not require any downtime. RF Skin Tightening offers a convenient, pain-free solution for enhancing your physique, appearance and body image confidence without the hassle, discomfort, downtime and costs associated with surgery.

Frequently asked questions

What is RF Skin Tightening?

Radio Frequency (RF) Skin Tightening tightens, tones and firms loose, sagging or ageing skin. RF Skin Tightening treatments can address lax skin on virtually any part of the face or body.

Can I combine RF Skin Tightening with Fat Cavitation treatments?

Fat Cavitation and RF Skin Tightening work excellent as hand in hand treatments to reduce fat and tighten loosened skin as a result of fat loss, they also work just as effectively as stand-alone services. For example, if you wanted to tighten and firm loose skin on the neck area you may only require RF Skin Tightening treatment. Your individual concerns and needs will be discussed during the pre-treatment consultation process.

How many treatments will I need?

This will be individually assessed during your consultation. Typically to achieve maximum results, a course of 6-10 treatments will be prescribed spaced at one week apart.

Are the treatments painful?

RF Skin Tightening treatments are painless, which is one of the many reasons why they offer a popular alternative to surgery or liposuction. Some patients may experience redness in the treatment area initially, but this will pass soon enough.

Is there any downtime following treatment?

No. Another great benefit of RF Skin Tightening is that treatment does not require downtime. Following your session, you are free to get on with your day as usual.
